

## 2017 CASIOPA Field Trip Logistics

- We thank our field trip leaders and Susan Cooper for organizing the package of field trips
- Participants must be adults and are advised that they participate at their own risk - though none of the field trips are high risk
- Costs were included in the price for registration
- You sign up during breakfast on Wednesday in Salon B (we will provide sign up sheets); those arriving later on Wednesday morning or during lunch can still sign up but trips may have caps and are first come, first served
- Trips will leave by 1:15 PM; please be on time and prepared to travel by 1:10 PM
- Trips should return no later than 5:30 PM; some trips may return sooner
- Some trips are more strenuous; please sign up according to your expectations of difficulty (e.g. rock climbing trips will be more difficult)
- Please bring necessary amenities (insect repellent may still be needed, sunblock, hat, good hiking shoes or boots, clothing layers as weather can range from cool to hot and rain is always a risk, any medications like epi-pens (please make others aware if you do have anaphalaxis or other serious health risks – again, sign up knowing your risk tolerance)
- We will car pool to sites – none are more than 45 minutes away.
  - Those willing to serve as drivers will be asked by trip leaders to ID themselves and ID number of passengers allowed.
  - Those volunteering to lead should provide paper maps though it is recommended the driver have onboard GPS or a passenger who can use their cell phone or other map/GPS capable device to navigate.
  - None of the trips are that hard to find but it is useful to plan routes ahead of departure and have a navigator or navigational aid.
